

# **BIOGRAPHY**

Victor Benoun fell in love with magic when he was just 5 years old. Every Saturday, with his father, Victor watched The Magic Land of Alakazem starring Mark Wilson. He knew he was witnessing the impossible, and that fed his appetite for a lifelong passion for magic.

Victor began performing shows when he was 9 years old at birthday parties, anniversaries and even in his parent's garage. To him there was nothing like the experience of magic, to see and witness miracles, and then sharing this feeling with others.

Fast forward several years into the future, Mark Wilson actually became one of Victor's teachers at The World Famous Magic Castle in Hollywood, California where Victor is a member. Since that time Victor has studied at the world famous Magic and Mystery School with Jeff McBride.

Magic is as much about what you feel as what you see. Do you feel a sense of wonder when you experience magic? Do you feel like a kid again? That's why Victor says, "I just don't want you to see a magic show, I want you to experience magic."
